# ABOUT US

At PetroExportHub, we are building a new generation of B2B trade for petrochemical and chemical products across emerging and established markets. Our platform bridges the gap between local suppliers and global buyers, providing a reliable, digital-first solution for trade, logistics, and supplier discovery.

We focus on simplifying the complex – from sourcing and documentation to market education and trust-building. Whether you're a factory in Iran, a buyer in Russia, or a distributor in Turkey, we help you move faster with real data, AI-powered tools, and a growing network of professionals.

# OUR GOALS

## Build Trust Across Borders

Establish reliable connections between verified suppliers and buyers to foster long-term, transparent business relationships.

## Empower Smart Decisions

Leverage data and automation to help users make informed decisions, reduce risks, and optimize their trade operations.

## Simplify Global Trade

Streamline the export and import of chemical and petrochemical products through a user-friendly, AI-enhanced B2B platform.

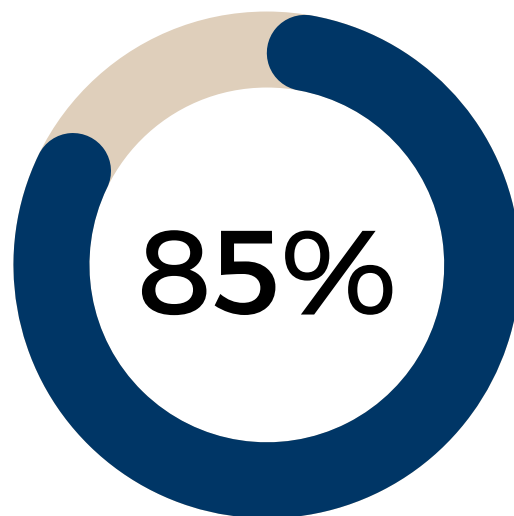

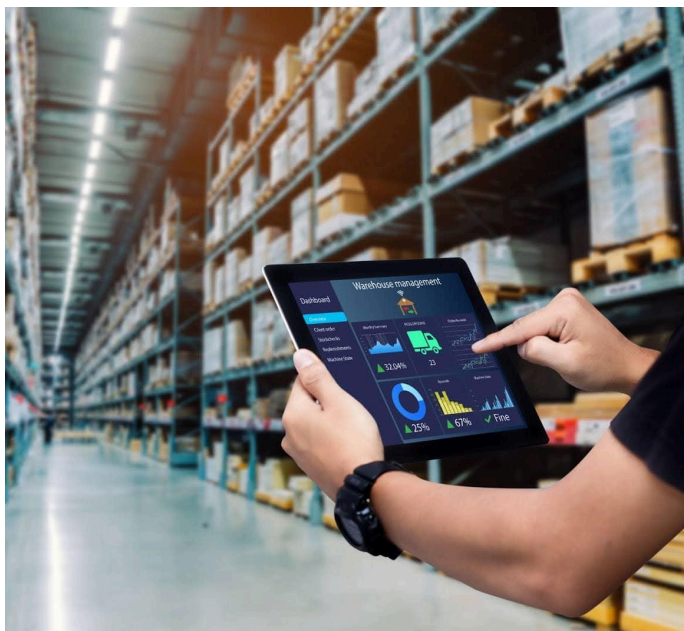

## Support Industry Growth

Promote innovation and efficiency by offering services, insights, and tools tailored to manufacturers, traders, and logistic partners.

# PRODUCT OVERVIEW

At PetroExportHub, we offer a wide range of chemical and petrochemical products tailored to meet the diverse needs of international markets. Our portfolio includes industrial-grade raw materials, specialty chemicals, and petro-based compounds sourced from reputable manufacturers across the region.

Each product listed on our platform undergoes a multi-step verification process to ensure compliance with global quality standards, including technical data sheets, MSDS documentation, and third-party certifications.

our platform connects you with trusted suppliers, real-time stock availability, and streamlined management.

Through our smart categorization and AI-powered matching system, buyers can easily explore product specifications, request quotations, and initiate secure transactions—all within a few clicks

# OUR PRODUCT

Whether you're looking for bulk commodities like urea, sulfur, methanol, or more specialized derivatives, our platform connects you with trusted suppliers, real-time stock availability, and streamlined order management.
